# WHY CHOOSE US ?

**ie**  
UNIVERSITY

SUMMER  
SCHOOL

## Discover for yourself the uniqueness of IE University

- Spain, Madrid, IE Tower, Vertical Campus
- Top-rated IE Professors
- Highly internationally diverse class cohorts

## Customize your summer of learning by flexibly combining modules

- Choose from 14 two-week modules
- Combine flexibly up to three modules
- Earn ECTS credit equivalence at your home institution

## Experience high-impact learning formats

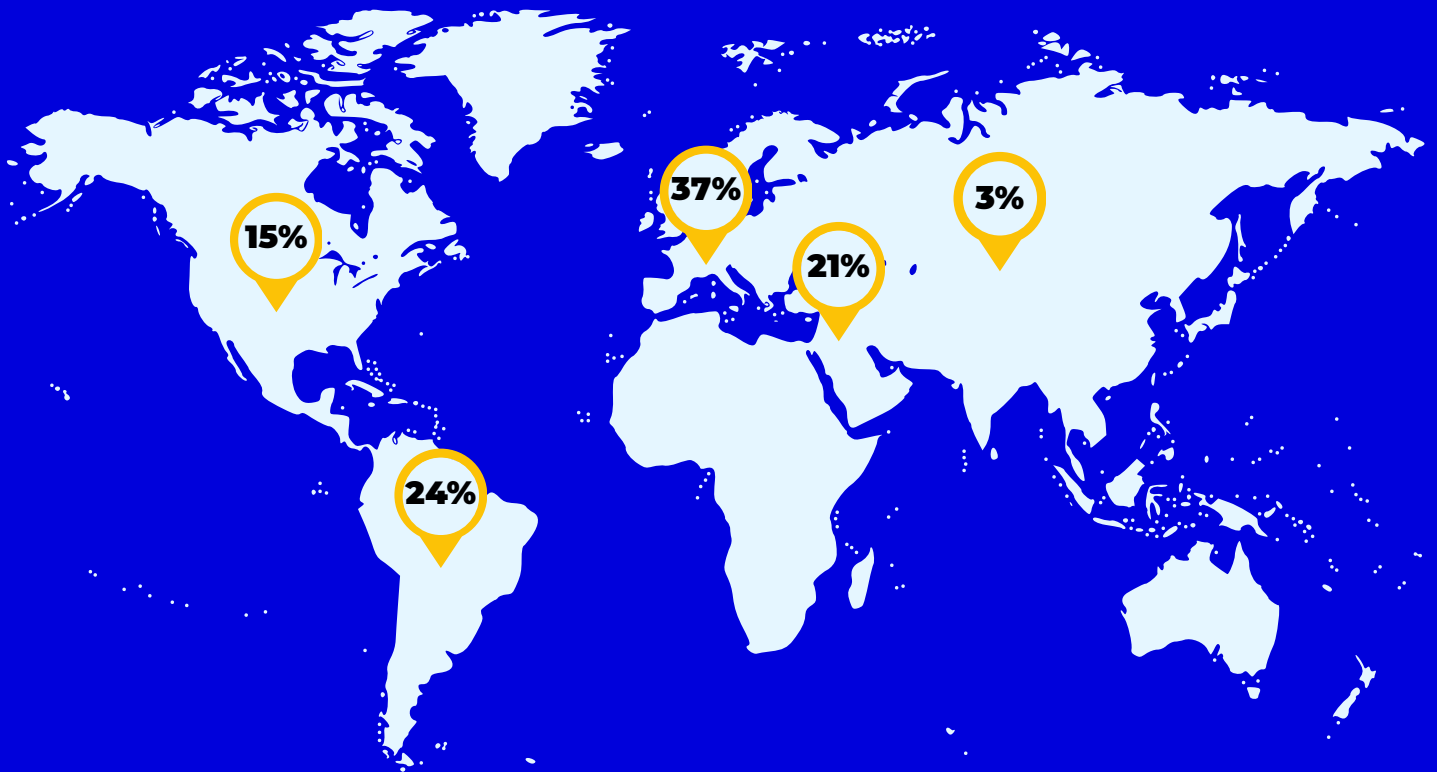

- Innovative course designs foster true learning immersion
- Hands-on, skills-focused, highly applied & practical
- Designed for high immediate personal impact

“

*The summer course was a truly enriching experience, offering dynamic classes and innovative learning approaches.*

*- Carolina Gasca*

# DIVERSITY

“

*IE was an amazing experience since it has shown me how this university values diversity and ethics of all international students. Its campus is amazing as well as its location but most importantly its excellent staff.*

*- Ewen Pouliquen*

SCHOOL

July 13<sup>th</sup> - July 24<sup>th</sup>

# CREATIVE INTELLIGENCE

This immersive module explores **how to enhance customers' experiences using creativity to transform products, services, and brands through human-centered design**. Through hands-on workshops and team challenges, you'll sharpen your creative mindset, solve real-world problems, and uncover how intelligent creativity drives the future of business, technology, and society.

## FOR THOSE WHO...

- Are eager to connect creativity with strategic thinking to drive real impact.
- Value both analytical rigor and creative exploration.
- Who want to be “creative with purpose” thinkers, makers, and problem solvers.

*IE Summer School was truly life-changing. I gained confidence not only in my future career, but also in who I am as a person.*

- Gertie Geraghty

# WORK STATION

June 29<sup>th</sup> - July 10<sup>th</sup>

## BREAKTHROUGH

### TECH & AI

Experience the future of technology with this module. Engage in real-world applications, collaborate on evolving projects, and gain tech insights through mentorship and group reflections. **No prior programming or technical knowledge required.**

#### FOR THOSE WHO...

- Want to understand emerging technologies and the role of AI.
- Want to embrace tech via guided learning by doing.
- Want to develop a personal tool-kit to assess new technologies.

Co-created with:

A young man and woman are working together on a robotic arm project. The man is on the left, wearing a dark blue polo shirt, and the woman is on the right, wearing a white t-shirt. They are both looking down at the robotic arm, which is white and black. The arm is mounted on a base and has a gripper at the end. The background is a blurred indoor setting with large windows.

July 13<sup>th</sup> - July 24<sup>th</sup>

# BREAKTHROUGH

## ROBOTICS

Hands-on academic module for undergraduate students and young professionals interested in robotics, automation, and AI. The experience combines technical training with real-world applications, empowering participants to **explore the role of intelligent systems** in shaping the future. **No prior programming or technical knowledge required.**

### FOR THOSE WHO...

- Are excited to collaborate on real-world challenges with peers from diverse backgrounds.
- Are looking to understand how intelligent systems can drive future change.

Co-created with:

SCHOOL OF  
SCIENCE &  
TECHNOLOGY

*IE Summer Program was 10/10, from the professors, dynamic classes and meeting people from all over the world. It still amazes me how integrated I felt in such an amazing community with so many great people.*

*- Rafael C3ias*

“

June 15<sup>th</sup> - June 26<sup>th</sup>

# LAW & INNOVATION

You'll develop essential skills such as legal analysis, negotiation, strategic problem-solving, and advocacy in the context of emerging technology and human rights. This hands-on experience will equip you with **practical tools to navigate and influence the future of law, policy, and innovation.**

## FOR THOSE WHO...

- Are considering career options in law.
- Want to develop essential skills such as legal analysis.
- Are passionate about the evolving challenges of data-driven business and its impact on society.

Co-created with:
